No, I don’t think so.

Bio:

Aunt Patty is someone who finds joy in simple, meaningful parts of life. Gardening, crafts, sewing, and live music are some of the activities that bring her the most happiness, and she often spends her free time sharing those moments with family. She is known by the people around her as funny, kind, and easy to be around, qualities that reflect the strong faith and steady outlook she carries with her each day.

Family has always played a central role in her life, and her parents have been her greatest influence. Their guidance shaped her values and helped her navigate the challenge of building a successful career while raising a family. That balance was not always easy, but it taught her resilience and the importance of staying grounded. Even now, she continues to work toward personal goals, such as healing her right leg, improving her sleep, and learning how to make a denim purse, which reflects her creative spirit.

Her idea of a perfect weekend is simple and fulfilling, listening to live music, enjoying a favorite restaurant, getting a full night’s rest, and spending time with the people she loves. If she could speak to her younger self, she would encourage more courage and remind herself not to hold back. She tries to live with gratitude, stay active, and appreciate the small moments that make life meaningful.
